"Misjudged." Three reel Gold Seal drama, with Herbert Rawlinson and Anna Little, under direction of William Worthington. Herbert Rawlinson in his portrayal of the man betrayed and ruined by his partner and forced to begin life anew, carries every scene in his convincing manner. The action, realism, plot development and climax of this feature makes it a whole of a three reelers. It is Universal "class" through and through.

TUESDAY, SEPTEMBER 28.
"Blond." Four reel drama. Clara Fritsch Clark has taken those three inches of a sonnet and 22 inches of drama. The sentimental artist, his social butterfly of a wife and the little orphaned girl of the seashore, and made them the important incidents of this picture.

The story can easily be imagined. The husband is unsatisfied with his wife, and his meeting with the girl of his own heart causes him to neglect her. She is finally killed in a train wreck and the artist is free.

The wreck of the express train constitutes a good thrill as well as being a good piece of mechanical work. Also good comedy.

LUIS TERRAZAS NOTED MEXICAN ESCAPES JAIL

WAS HELD 18 MONTHS AS HOSTAGE FOR ACTION OF RELATIVES

El Paso, Tex., Sept. 27.—After being held hostage for about eighteen months, Luis Terrazas, Jr., son of General Luis Terrazas, together with his son, Guillermo Terrazas, have escaped from Chihuahua City and are en route to the border overland, according to official Villa advices today. Three guards at the Chihuahua jail are reported to have been shot on suspicion of complicity in the escape.

After the migration of the Terrazas family to the United States, abandoning their ranch, which included vast areas in the State of Chihuahua, Luis Terrazas, Jr., was caught and held hostage for the political activity of the family in the United States and incidentally for ransom of \$500,000 demanded of him. Luis Terrazas on a threat to kill his son.

It is understood that part of the ransom was paid, but the prisoner was not released. Subsequent ransoms were demanded and compromised, but the prisoner was given only the liberty of the city, under guard. It is said that nearly \$1,000,000 was paid for the promised release of Luis without moving him nearer the border.

Guillermo Terrazas was held merely as a member of the Terrazas family.

Villa To Follow Troops.
El Paso, Tex., Sept. 27.—General Villa will follow his troops to Sonora as soon as his troops now en route westward are mobilized in that state, according to an official announcement today. It is expected General Villa will reach Juarez on Monday.

San Diego, Cal., Sept. 27.—Eighty passengers of a Southern Pacific Mexican train were thrown into a car containing hay and the car set on fire by a band of Yaqui Indians, near Torres, Sonora, according to radio advices received here from Hermosillo, via Guaymas. Only twenty passengers have been accounted for thus far, the others having been burned to death.

The Indians, according to the report, numbered about sixty and were deserters from one of the Mexican factional armies. They first derailed the train, which was running from Campo Verde to Torres, after which they placed the passengers, most of them women and children, in the hay car and applied the torch. So far as known no Americans were in the train.

Torres is a small town about seventy miles north of Guaymas.

It is certainly surprising that any woman will endure the miserable feelings caused by biliousness and constipation, when relief is so easily had and at so little expense. Mrs. Chas. Peck, Gates, N. Y., writes: "About a year ago I used two bottles of Chamberlain's Tablets and they cured me of biliousness and constipation." Obtainable everywhere.

BALDWIN'S FILLS RUSH ORDER IN RECORD TIME

250 LOCOMOTIVES FOR RUSSIA ON WAY TO COMPLETION; RECORD BROKEN

Philadelphia, Pa., Sept. 27.—The Baldwin Locomotive Works is building 250 locomotives under rush orders for the Russian government, according to an announcement made last night by Alva B. Johnson, president of the company.

Turning them out at the rate of five a day, the company already has shipped 135, and expects to fill the balance of the order in advance of the time limit set by the Russian government, which was the last day of October.

The company is breaking all records under the pressure for foreign contracts. Where 4,500 men were employed a few months ago, the Baldwin payroll has jumped to 12,000 men. Four steamships no more loading railway rolling stock from Philadelphia's giant industry for Vladivostok, and nine more are due at the ports of New York and Philadelphia to take on Baldwin goods.

The Russian order for 250 new locomotives was received by the Baldwin Works about the end of June. The Philadelphia concern agreed to begin shipment within 60 days, and to ship at the rate of 25 locomotives a week or 100 a month, until the 250 were finished. The first work necessarily was slow, by reason of the time needed for expanding equipment and in drilling workers. However, 47 locomotives were completed by the end of August. They were ready far in advance of the ships to take them across the ocean.

Last Saturday night the works had finished and had ready for immediate shipment the 130th engine. By tomorrow night the 155th will have been completed. The entire order will be filled by the end of October with ease, officials said.

The popularity of the Baldwin engine in Russia came after the works last year had shipped a first order of 30 engines for use at Archangel.

In Washington yesterday Secretary Redfield said the work accomplished by the Baldwin plant in filling the present order was a record breaker. Secretary Redfield said the Baldwin plant had to buy every pound of material that went into the making of these engines.

According to information at hand in Washington the Russian government is not alone counting upon the American locomotives to merely haul supplies from Vladivostok to the central portion of Russia, but as soon as they reach Moscow, they are to be utilized in transporting coal to various parts of Russia, particularly to the battle-front. It is said, owing to faulty railroad equipment, Russia has blamed her reverses as much to lack of coal as to lack of ammunition. The Russians simply did not have the engines to haul the coal to the front.

All cigarettes are pure, but—

purity alone doesn't make a cigarette SENSIBLE.

We don't know of a single one of our competitors who doesn't make his cigarettes of pure tobacco.

But a pure cigarette that didn't taste just right wouldn't do for you, would it?

And to be really sensible a cigarette must give you more than purity and a good taste.

It must be cool and friendly to your throat and tongue. And it must leave you feeling fine after smoking all day.

Fatimas are not the only cigarette that measure up to all these requirements. There are other sensible ones.

But Fatimas seem to have a big margin in their favor on their good taste. Otherwise they could not outsell all other cigarettes costing over 5c.

You can't tell whether they will just suit your taste until you try them.

At the same time, you can easily prove how sensible they are by these two tests.

Most men who try Fatimas say "Good Bye!" to all other cigarettes right away. That's why Fatimas sell so fast.

Why don't you try Fatimas today?

TWO TESTS FOR ANY CIGARETTE

The taste of the cigarette—according to a leading tobacco journal—is up to the point that you should look for the cigarette to be a "good" one. Here are a couple of tests that may help the average smoker to choose more wisely between different brands of cigarettes.

The first test is for coolness, which means more comfort to the throat and tongue. Light cigarettes, which are not too strong, are the best. Disagreeable Calomel is Yielding to Pleasant Liv-Ver-Lax.

Physicians generally agree that the nauseating, unpleasant effects of calomel are due to the unduly violent action it has on the system.
